

Underage Drinking in Nebraska

The Facts

Tragic health, social, and economic problems result from the use of alcohol by youth. Underage drinking is a causal factor in a host of serious problems, including homicide, suicide, traumatic injury, drowning, burns, violent and property crime, high risk sex, fetal alcohol syndrome, alcohol poisoning, and need for treatment for alcohol abuse and dependence.

Problems and Costs Associated with Underage Drinking in Nebraska

Underage drinking cost the citizens of Nebraska \$435 million in 2001. These costs include medical care, work loss, and pain and suffering associated with the multiple problems resulting from the use of alcohol by youth.¹ This translates to a cost of \$2,340 per year for each youth in the State. Nebraska ranks 19th highest among the 50 states for the cost per youth of underage drinking. Excluding pain and suffering from these costs, the direct costs of underage drinking incurred through medical care and loss of work cost Nebraska \$149 million each year.

**Costs of Underage Drinking
Nebraska 2001**

Costs of Underage Drinking by Problem, Nebraska 2001

Problem	Total Costs (in millions)
Youth Violence	\$174.9
Youth Traffic Crashes	\$160.2
High-Risk Sex, Ages 14-20	\$36.9
Youth Property Crime	\$20.6
Youth Injury	\$18.5
Poisonings and Psychoses	\$8.2
FAS Among Mothers Age 15-20	\$6.1
Youth Alcohol Treatment	\$9.4
Total	\$434.8

Youth violence (homicide, suicide, aggravated assault) and traffic crashes attributable to alcohol use by underage youth in Nebraska represent the largest costs for the State. However, a host of other problems contribute substantially to the overall cost. Among teen mothers, fetal alcohol syndrome (FAS) alone costs Nebraska \$6.1 million.

Young people who begin drinking before age 15 are four times more likely to develop alcohol dependence

and are two and a half times more likely to become abusers of alcohol than those who begin drinking at age 21.² In 2002, 364 youth 12- 20 years old were admitted for alcohol treatment in Nebraska, accounting for 7.5% of all treatment admissions for alcohol abuse in the State.³

Alcohol Consumption by Youth in Nebraska

Underage drinking is widespread in Nebraska. Approximately 99,000 underage youth in Nebraska drink each year. In 2001, according to self-reports by Nebraska students in grades 9-12:⁴

- 83% had at least one drink of alcohol on one or more days during their life.
- 27% had their first drink of alcohol, other than a few sips, before age 13.
- 53% had at least one drink of alcohol on one or more occasion in the past 30 days.
- 39% had five or more drinks of alcohol in a row (i.e., binge drinking) in the past 30 days.
- 3% had at least one drink of alcohol on school property on one or more of the past 30 days.

In 2001, underage drinkers consumed 25.7% of all alcohol sold in Nebraska, totaling \$156 million in sales. These sales provided profits of \$76 million to the alcohol industry.¹

Federal Resources Available for Combating Underage Drinking in Nebraska

Nebraska receives \$360,000 for the Enforcing Underage Drinking Laws Program of the Office of Juvenile Justice and Delinquency Prevention, allocated specifically to address underage drinking. Additional funds which could be used to address the problem in Nebraska include:

- \$7.9 million through the Substance Abuse Prevention and Treatment Block Grant administered through Substance Abuse and Mental Health Services Administration. \$1.6 million of that total is set aside for prevention.
- \$1.8 million from the Safe and Drug-Free Schools and Communities State Grants program of the U.S. Department of Education.
- \$0.2 million from the Community Service for Expelled and Suspended Students initiative of the U.S. Department of Education.
- \$0.5 from the Governor's Discretionary Funding for Safe and Drug-Free Schools.

Funds available for Nebraska to combat substance abuse	\$11 million
Total underage drinking sales	\$156 million
Total alcohol industry profits on underage drinking	\$76 million
Total underage drinking costs	\$435 million
