In all scenarios below, a student is considered a **close contact** when they have been within *6 feet of the COVID-19 positive individual for 15 minutes*.

- If the exposure occurs during extracurricular activities that take place outdoors or in large spaces (such as gyms) where 6-foot distance can be maintained, in lieu of quarantine, close contacts may self-monitor.
- In all scenarios below, **students who are self-monitoring are required to wear masks**.
- **PreK-12 students who are a close contact due to exposure to a household member are required to quarantine**.
